Project aim

In line with the objectives of the ESC, the project aims to raise awareness of all actors involved, specifically with regard to the gender issue, in general descending **in defence of all minorities**. We are well aware that "we have to fight for their life as if it were our own - because it is. Because if they take you away at dawn, in the evening they will come for us." In many EU countries, the gender issue has yet to achieve full equality in law. Even more worrying is the fact that anti-discrimination laws are not implemented. In this context, it is often the non-profit sector that has driven social change towards sexual and gender minorities in societies.

Who is AL.I.C.E.?

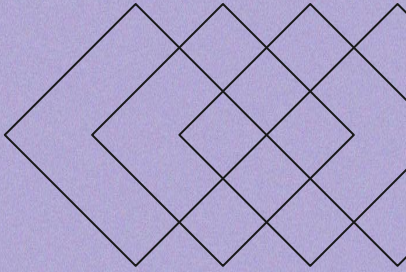

THE HOSTING ORGANISATION

Born in 2007, it promotes and coordinates territorial networks for the socio-occupational integration of disadvantaged groups and for the enhancement of the community value in favour of the psycho-social well-being of citizens. The cooperative is a space of meaning that is always evolving and never predictable, a place made up of people who deeply love what they do.

Since 2017 AL.I.C.E organises **BIG festival**, which aims to be a link between cinema, music, performance, cultural entertainment, proposing a reflection and an awareness of the issues of gender, identity and sexual orientation, understood as processes and possibilities in the making.

Who is MOH?

THE COORDINATING ORGANISATION

MOH believes that all young people deserve to grow up in communities where quality services, opportunities and support are offered, which are necessary to get them into adulthood ready for university, work and civic engagement throughout their lives. For this reason, MOH strives to coordinate and promote different projects for young people at national, local and European level.

The intent is to **encourage local youth to meet young people from other European countries**. This encounter with the "other", experienced as an enrichment will spontaneously create active participation in civil society, facilitating also a change in the reality in which we live.

About Bari, Italy

Bari is a very charming city, the third one for population of Southern Italy. **It is located on the Adriatic coast of Italy.**

The contrast between the **folkloristic old town** and the cozy city centre full of branded shops and polished aristocratic buildings is incredible.

Walking through the streets of Bari means feeling the **local culture, history and tradition**, art and architecture, but also typical food.
